Walk-In-Interview

Advt. No. NABI/8(33)/2015-GAP-15/2017-3

Advertisement for Junior Research Fellow

National Agri-Food Biotechnology Institute (NABI), Mohali is an autonomous R&D Institute under Department of Biotechnology (DBT), Government of India. The institute carries out cutting edge research at the interface of Food, Nutrition and Agricultural Biotechnology.

Applications are invited for the positions of Two Junior Research Fellow (01 position of JRF is in project) under the DBT-BBSRC sponsored research project in the Agricultural Biotechnology research programme at NABI.

Project Title: “A genomics assisted synthetic hexaploid wheat gene isolation and pre-breeding platform for improvement of heat tolerance and sustainable production”.

Principle Investigator: Dr. Monika Garg

Sponsoring agency: Department of Biotechnology (DBT-BBSRC), Government of India.

Position available: One Junior Research Fellow

Duration: The appointment will be till 13th April, 2019 or till the termination of the project whichever is earlier.

Objective: This project combines the generation of SHW-derived germplasm with genomics-assisted and statistical genetic approaches to establish an integrated platform for trait improvement, gene discovery and pre-breeding. This will be exploited within the project timeframe to identify novel genetic and transcriptional variation controlling heat-stress resistance for deployment within Indian and UK pre-breeding programs. The positioning of project outputs and partners at the interface between wheat genetic research and breeding in India and the UK
will be leveraged to aid rapid translation of the pre-breeding resources generated into the breeding sector.

To fulfill these objectives, controlled heat stress assay, cell membrane stability (CMS), effect of heat on grain size, seed protein and starch deposition will be studied. Fractionation, quantification and differential expression studies of different proteins affected by heat stress will be carried out for marker development and its utilization for screening of generated double haploid population. Studies on starch granule distribution, accumulation pattern and amylose: amylopectin ratio in response to controlled environment stress will be studied at NABI.

**Project Title:** "Improvement of processing and nutritional quality of wheat"

**Principle Investigator:** Dr. Monika Garg

**Position available:** One Junior Research Fellow

**Objective:** This project aims to identify wheat with desirable and stable bioactive compounds with high heritability. Efforts will be made to understand the health benefits of different bioactive compounds in wheat. It will involve selection/development of lines with higher amount of stable bioactive compounds with desirable health effects on human body like anthocyanin, carotenoids, vitamins, dietary fibres, minerals like Fe, Zn etc.

**Essential qualifications:**

Post Graduate Degree in Basic Science with NET Qualification OR Graduate Degree in Professional Course with NET qualification OR Post Graduate Degree in Professional Course. (Eligibility criteria as DST OM No.SR/S9/Z-09/2012 dated 21.10.2014)

**Desirable qualifications:**

Prior research or training experience in in Agricultural Biotechnology, 2D-Page and Mass spectroscopy.

**Age:** 28 years (Relaxation is admissible in case of SC/ST/OBC as per Government instructions)

**Emoluments:** The JRF will be hired as per the emoluments’ guidelines and service conditions notified by DST (DST OM No.SR/S9/Z-09/2012 dated 21.10.2014). Rs. 25000/- per month Plus HRA.

**Application and Selection Process:** All interested candidates may appear for walk-in-interview at NABI located at **Knowledge City, Sector-81, Mohali-140306, Punjab India on 12th July, 2018 (Thursday) at 09:00 AM** along-with duly filled application form available on the website www.nabi.res.in. Further, interested candidates should also send the softcopy of the application form to monikagarg@nabi.res.in on or before 12th July, 2018. The duly filled application form must be submitted at the time of registration at NABI-reception desk from **0900 Hrs to 1000 Hrs on 12th July, 2018**. The candidates must ascertain their eligibility before applying, as ineligible candidates will not be interviewed. All the candidates are requested to appear for the interview with full CV, thesis/project report, publications and original degree certificates and transcripts. No TA/DA will be paid for appearing in the interview.
